Christian Science Official Fills National Theater.

Edward A. Kimball Tells Professors of His Faith and Gropers After Truth His Church Has "Planted Hope and Promise in Parched Soil of Each Human Experience.

The National Theater was filled to capacity yesterday afternoon, when Edward A. Kimball, doctor of Christian Science, of Chicago and Boston, lectured on practical. The consciousness of human Christian Science. The audience was is involved in every kind and degree of composed not only of people who profess evil experience and oppression. Humanity Christian Science, but there was a fair needs to be saved from all of it, from sprinkling of others who came to hear what the lecturer had to say that might structs. Can it be saved? Can it be saved help solve their doubts. There were a from all of the miserable wretchedness great many men, but the majority of Can it be saved now? The answer i hearers were women.

cently Mrs. Mary Baker Eddy's secre- tion, and strength, and the kingdom tary, introduced the lecturer. Mr. Wilson our God, and the power of his Christ. said:

"The means by which Christian Science has come to your attention, by which it has engaged the attention of the foremost thinkers of our day, is not to be as the burden drops off, the pang cease found in any claims Christian Science and the tension of fear is broken, eac makes for itself, but is to be found in the good results it has brought about in the lives of relatives, friends, and ac-shall be satisfied when I awake with quaintances. Their health, their morals, Thy likeness. their business, their very aims have undergone a reformation.

Science and Theology.

"Science and theology have been at work since time began in an attempt to orrect the errors of human existence. Until the advent of Christian Science, these forces, so-called, were regarded in the main as antagonistic. Now, on every hand, we hear testimony from rich and poor, Jew and Gentile, bond and free, to Hall Crowded by Members in Anticithe effect that through Christian Science these two-science and theology-have been successfully united on a working

"About a month ago in Chicago a Con gregational minister of that city, in introducing to-day's lecturer, said in the terday afternoon at the regular meetcourse of his remarks:
